

# Managed Integration Platform

Unlock maximum productivity and cost savings from your Integration Platform, without the need for internal technical expertise.

## Business challenge

With an Azure Integration Platform, you can leverage the power of Microsoft Azure to transform your business with faster processes, reliable data, and better insights. But as your business grows and changes, you need a partner who can keep your integration platform running smoothly and securely. That's why we offer a managed service that takes care of the process automations, reporting functions, and API management for you, so you can focus on your core business objectives.

## How we help

You have already invested in a best-in-class integration platform powered by Microsoft Azure. Now, let Insight take care of the rest. Our Managed Integration Platform service handles the operational maintenance of the platform and the Microsoft technology stack, so you can focus on delivering strategic value to your business.

Whether it's process automation, data integration, or reporting, our service ensures that everything works seamlessly and securely across your systems and applications. Our Managed Integration Platform service, you don't have to worry about the daily management of the platform.

We provide 24x7 monitoring and proactive incident support, so you can trust that your integration platform is always up and running.

## Benefits

- Adapt quickly to changing business needs with flexible and scalable solutions
- Free up your internal resources and capacity for higher-value tasks
- Maintain reliable and secure connections between your critical business systems
- Maximise the ROI from your integration platform investment
