

Azure Integration Foundations

An accelerated foundation for your integration modernisation

Business challenge

A fully integrated technology infrastructure is critical to the success in leveraging organisational agility and flexibility to meet the increasingly rapid demands of an organisation to innovate and stay competitive. However, as businesses evolve, processes and technology often become siloed across multiple platforms and environments, leading to inconsistent data and the inability to provide a fully integrated business view.

Traditional integration solutions focus on governance and have a limited ability to serve agile business requirements that require accelerated time to market. Deploying a repeatable, end-to-end integration framework that leverage security, governance and architecture best practice enables organisations to champion business agility through a single source of truth.

How we help

Incorporating both Insight and Microsoft best practices for security, governance and connectivity, Insight's team of integration experts will deliver the foundational framework for repeatable best practice Azure Integration Services.

Our packaged Integration Foundations offering will address key security, governance, cost control and operational requirements through a series of collaborative workshops, knowledge transfer, infrastructure as code and DevOps ready implementation framework.

This offering will provide you with the following deliverables:

- Assessment of current integration ecosystem and selection of up to two service integrations to be modernised
- Enablement workshops with your Integration Development and Infrastructure team
- Configuration of Azure DevOps build & deploy pipelines and prerequisites
- Configuration & deployment of Azure Integration Service resources based on Azure Blueprint to non-production and production environments
- Selected legacy integration service code remediated as Azure Integration Service
- Azure Integration Service deployed and validated in non-production and production environments

Duration

- 4 weeks

Benefits

1. Identify key integration use-cases
2. Create a repeatable, best-practice integration process
3. Drive business agility with end-to-end integration framework
4. Understand the benefits of Azure Integration Services

INSIGHT AWARDS

- 2021 Worldwide Partner of the Year in Solution Assessments and Azure Migration
- Microsoft Solutions Partner for all Solutions Areas

Phase 1: Analysis and Design

To fully understand your current application integration strategy, security posture and target state goals, Insight will conduct a brief series of targeted workshops with your relevant stakeholders covering:

- Project Kick-off
- Asses & Migrate report evaluating the application integration ecosystem to validate cloud migration feasibility
- Workshop sessions to discuss current customer environment and requirements and preferred target state related to:
 - » Solution deep-dive to gather architectural requirements
 - » Deliver best practices
 - » Operations: monitoring, logging and, telemetry
 - » Solution security

(Customer can choose which workshops to run based on business priorities)

- Creation of solution architecture document based on workshop outcomes

Phase 2: Implementation

The following activities will be executed for the non-production and production environment:

- Configuration of Azure DevOps build and deployment pipelines and prerequisites
- Template driven configuration and deployment of Cloud Integration Platform resources
- Establish end-to-end integration and connectivity between services
- Validate permissions and access controls
- Demonstration of end-to-end integration within a production ready environment

Integration Foundations Project approach

Why Insight for Microsoft?

Few can compare with our relationship with Microsoft. Partners for 30 years and counting, we are the largest Microsoft global partner with more than 5,000 consultants and 1000 dedicated Microsoft resources globally. Our best-in-class capabilities, unmatched expertise, and ability to successfully deliver solutions built across all areas of Microsoft technology have earned us numerous recognitions.

7 Microsoft Solutions Partner Designations, including:

- Solutions Partner for Digital & App Innovation (Azure)
- Solutions Partner for Data & AI (Azure)
- Solutions Partner for Microsoft Cloud

12 Specialisation, including:

- Kubernetes on Azure
- Modernisation of Web Applications
- Data Warehouse Migration

Microsoft Partner Awards, including:

- 2022 Microsoft Surface Reseller Partner of the Year
- 2022 Microsoft Surface Hub Reseller Partner of the Year
- 2021 Solution Assessments Partner of the Year
- 2021 Migration to Azure Partner of the Year
- 2021 Microsoft 365 & Surface Solution Selling Partner of the Year

2,500 Microsoft certifications globally

About Insight

Insight Enterprises, Inc. is a Fortune 500 solutions integrator with more than 11,500 teammates worldwide helping organisations accelerate their digital journey to modernise their business and maximise the value of technology. We enable secure, end-to-end transformation and meet the needs of our clients through a comprehensive portfolio of solutions, far-reaching partnerships and 33+ years of broad IT expertise. Rated as a Forbes World's Best Employer and certified as a Great Place to Work, we amplify our solutions and services with global scale, local expertise and a world-class e-commerce experience, realising the digital ambitions of our clients at every opportunity.
