

# Transforming Financial Services takes Insight

## Enabling Smart, Connected Financial Service

From banking and brokerage to capital markets and insurance, we help our clients to navigate the rapidly changing consumer and regulatory landscape; working together to shape, build and manage solutions that keep your business competitive, profitable, and secure.

We have effectively embedded with our FSI partners to gain implicit understanding of their requirements, the scope of activities, business processes and practices and the intricacies of their IT systems, giving us first-hand knowledge of what's working and where the pain points are. We can rapidly stand-up large-scale projects with low risk and experienced personnel.

Streamline regulatory & operational reporting

Create engaging customer experiences

Enhance cybersecurity frameworks

Enable the modern hybrid workplace

Modernise legacy systems and apps

Effectively manage operations

## Our head is only in one cloud: Microsoft

Insight has partnered with Microsoft since 2013. We're proud to be the most lauded and awarded Australian supplier in our class. With a breadth of cloud services available on Microsoft's flexible cloud computing platforms; Office 365 and Teams, Power Platform and Dynamics 365 - to name but a few, you are guaranteed seamless, integrated end-to-end business solutions.

We can successfully guide your company through any stage of its digital transformation journey, from small standalone projects through to implementation strategies and digital roadmaps.

Solution Assessment Award

*Bankwest's decision to implement the new automated booking system is driven by its guiding vision and 'Bank Less' philosophy, as Chief Customer Officer Paul Vivian explains:*

*"Our vision is to deliver brilliant customer experiences every day and we aim to achieve this by helping customers to 'Bank Less'."*

# What this means for you?

## Cloud & hybrid cloud environments

Transform your data centre and transition workloads to the cloud to optimise cost, **streamline your operations** and encourage **agile working**, without compromising security.

## Data mastery

Leverage big data, AI and ML to make informed decisions across your enterprise from **quantifying and reducing risk** to **augmenting customer experiences**.

## Digitally savvy, talent network

Secure, intuitive portals and business apps for **enterprise-wide collaboration anytime, anywhere**.

Automate processes for **rapid, high-quality delivery** with productivity tools.

## Ecosystem integration

Seamlessly connect and integrate your internal environments and connect to partners, applications, systems and marketplaces.

**Introduce new partners faster, driving smarter business outcomes.**

## Intelligent workflows

Create end-to-end digitised processes unlocking value across your entire enterprise.

Optimise data and operations to create **transparent, personalised and efficient employee and customer experiences**.

## Unified customer experience

Connect customer lifecycle processes and personalise engagements across channels to deliver a **consistent experience** and foster **self-service** opportunity.

## About Insight

At Insight, we define, architect, implement and manage Insight Intelligent Technology Solutions™ that help your organisation run smarter. We'll work with you to maximise your technology investments, empower your workforce to work smarter, optimise your business and create meaningful experiences.

As the worldwide Microsoft 2021 Partner of the Year for Azure Migration and Solution Assessments, Insight leads the way in cloud resource usage and configuration optimisation. Insight's best-of-breed Azure cloud and data centre transformation services equip businesses with the expertise to discover, assess, modernise, support, and optimise their data estates, driving operational efficiencies and profitability back to the business.
