

Be a hybrid work hero with Microsoft Teams

Hybrid work transformed the way many of us run our businesses, with leaders working tirelessly to ensure their people could remain productive while logging in virtually. Even though hybrid work is our new reality, many employees are still jumping between disparate tools to get their work done. Constant app switching reduces performance, divides attention, and even lowers overall employee engagement.

We can help

You're invited to our exclusive **Collaborative Apps Workshop**, where consultants from Insight will take a look at your unique business goals, workflows, and tools with you, then help create **one central hub for all your work in Microsoft Teams**. Insight will design the workshop based on information and recommendations that are discussed in the initial engagement setup. Then, Insight's experts will guide you through ways to extend and customise your Teams workspace, adding and connecting all the apps your people need to get their work done.

Finally, Insight's experts will then design a tailored plan to get your apps up and running - so you can start taking advantage of a centralised workspace right away.

Specific workshop deliverables will be outlined by a SoW which will detail the structure and expectations.

Whatever your business needs, an app in Teams can help

Get started fast with a over 1,000 ready-to-use, easy to connect apps available in the Teams App Store.

Accelerate business outcomes by using low-code solutions, or building a custom app tailored to your needs.

Stay secure as applications, data, and communications are protected across Microsoft and partner services.
