

Protect home base and beyond with the elegant simplicity of Microsoft 365 E5

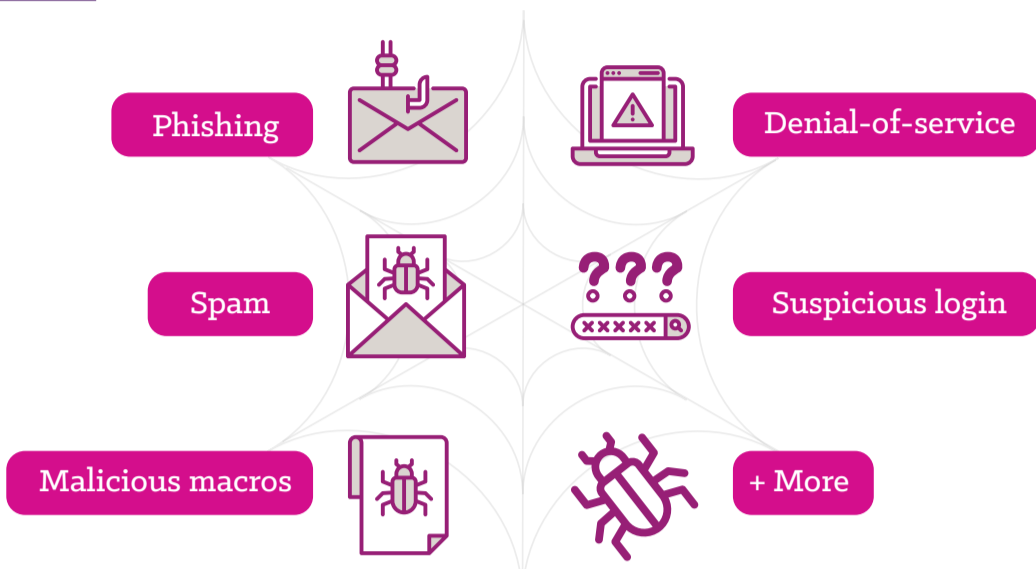

Securing your users, data, apps, and devices with Microsoft 365 E5 is as simple as securing a home – and just as critical.

Complexity is the arch enemy of security

Yet **78% of organisations use more than 50 cybersecurity products** to protect their environment¹

You're exposed to many threat vectors

You can't afford to ignore security

4 ways Microsoft 365 E5 protects users, data, apps, and devices

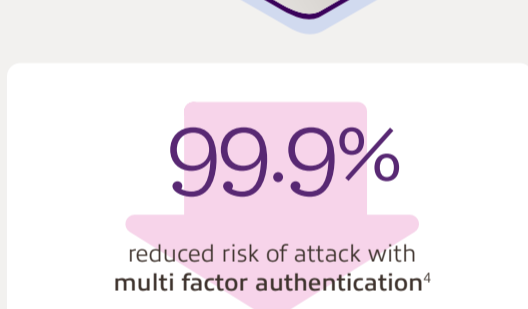

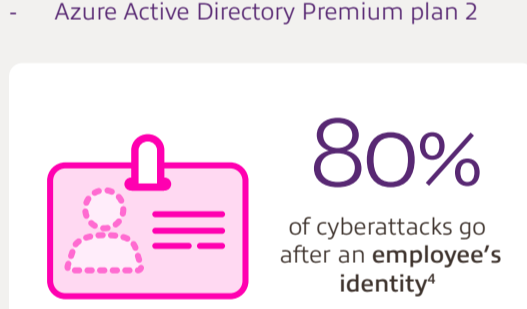

1. Identity and access management (IAM)

With person-based security incidents increasing in frequency and severity,⁵ IAM is the cornerstone of any security platform. To simplify IAM, Microsoft 365 E5 includes:

- Windows Hello, Credential Guard and Direct Access
- [Azure Active Directory Premium plan](#)
- Azure Active Directory Premium plan 2

2. Information protection

Locate and classify information anywhere it lives or travels, with information protection taking place at the file level. Microsoft 365 E5 includes:

- Microsoft 365 data loss prevention
- Windows Information Protection and BitLocker
- [Azure Information Protection P1](#)
- [Azure Information Protection P2](#)
- Cloud App Security

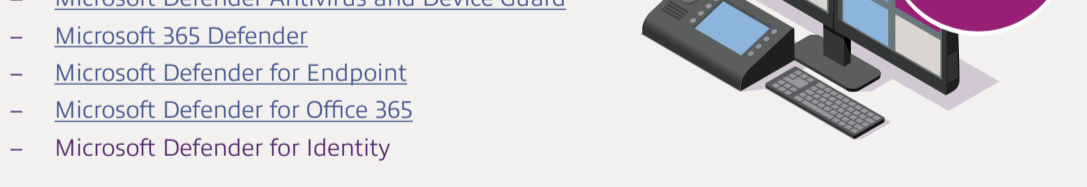

3. Advanced threat protection

Think of threat protection as the security around the front door of your organisation, like CCTV. For the proactive prevention of breaches, Microsoft 365 E5 monitors identities, endpoints, user data and documents, cloud apps and infrastructure. It includes:

- [Microsoft Advanced Threat Analytics](#)
- [Microsoft Defender Antivirus and Device Guard](#)
- [Microsoft 365 Defender](#)
- [Microsoft Defender for Endpoint](#)
- [Microsoft Defender for Office 365](#)
- Microsoft Defender for Identity

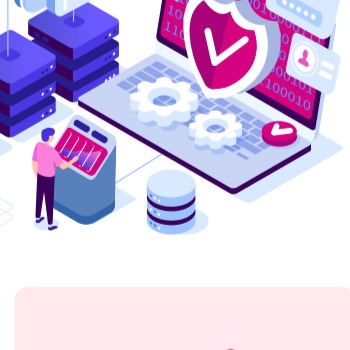

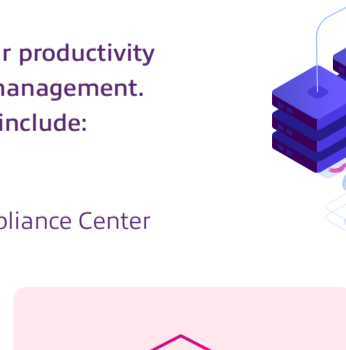

4. Security management

Microsoft 365 E5 integrates your productivity and security tools for simpler management. Its security management tools include:

- Microsoft Secure Score
- Microsoft Security and Compliance Center

Why Insight?

Microsoft Gold Partner with 15+ Gold and Silver competencies

Microsoft's largest global partner

Dedicated product, licensing and cloud enablement specialists

Customised migration, implementation and administrative support

Secure your business today
